Let's build
Plan, search, or build anything
Vibe
Chat first, then build. Explore ideas and iterate as you discover needs.
Spec
Plan first, then build. Create requirements and design before coding starts.
Great for:
Thinking through features in-depth
Projects needing upfront planning
Building features in a structured way

“A credit is a unit of work in response to user prompts.

Simple prompts can consume less than 1 credit.

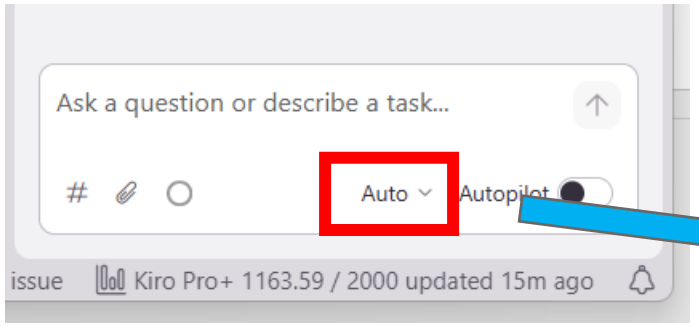

More complex prompts, such as executing a spec task, typically cost more than 1 credit.“
